

## EC e-Learning Programme

Project reference: EAC/23/05 DE 011

<http://www.edugi.net/eduGI>

The project mission is to demonstrate a business model for providing high-quality e-Learning with limited resources. Key features of the business model are:

- Re-using already existing resources
- Sharing resources in a network
- Exchanging complete courses including teachers – versus the mere exchange of teaching materials.

Eight European GI institutes use existing courses and adapt them to the requirements of the e-Learning course exchange. Each partner contributes one course, to be taught on a non-profit exchange basis with the partners.

### List of Institutions and Courses

#### ITC – *Visualisation*

International Institute for Geo-Information Science and Earth Observation, Enschede, The Netherlands

#### HUA - *Geographic Data Bases (Advanced)*

Harokopio University Athens, Greece

#### ISEGI - *GeoSpatial Data Mining*

Universidade Nova de Lisboa, Instituto Superior de Estatística e Gestão de Informação, Lisboa, Portugal

#### IFGI - *Project Management*

University of Münster, Institute for Geoinformatics, Münster, Germany

#### UNI BW - *GI Standards*

BW University Munich, Munich, Germany

#### UU - *Virtual excursions in Earth Sciences*

Uppsala University, Department Earth Sciences Uppsala, Sweden

#### TU - *Data Quality*

Department Geoinformation and Cartography, Technical University of Vienna, Austria

#### UWH - *Data Acquisition and Integration*

University of West Hungary, College of Geoinformatics
